

ALS MARINE Ltd Newsletter

October 2011

ALS MARINE is a leading service provider in marine industry and a specialist provider of underwater engineering services in Greece and abroad

1. **ALS MARINE Ltd is happy to announce that we have opened new Offices in Limassol, Cyprus. Our new companies are ALS MARINE CONSULTANTS and VOL OCEAN ENGINEERING, both established under the law of Cyprus:**

ALS MARINE CONSULTANTS LTD &

**VOL OCEAN
ENG**

Our companies are involved in marine consultancy and participate in scientific projects regarding Marine and Underwater engineering and technology. In addition the companies collaborate with companies, universities and research centres in technical marine and subsea programs, and study and conduct Marine and Underwater Engineering and Salvage Operations with Submersibles and Divers. The companies provide a wide range of quality services worldwide:

VOL OCEAN ENGINEERING Ltd is involved in:

- **Marine and Ocean Engineering**
- **Underwater operations with the use of submersibles (manned, autonomous, remote, hybrid).**
These activities are related with:
 - Sea bottom mapping and survey
 - Pipe, cable survey and inspection
 - Objects recovery
 - Wreck survey, inspection and recovery
 - Port constructions, surveys and inspections
- **Scientific Marine Research Projects**
- **Structural Studies** with the use of Finite Element Analysis
- **Development of constructions made of composite materials**
- **Commercial Activity**

ALS MARINE CONSULTANTS is involved in **Ship Management, Scientific Marine Research Projects** and in **Commercial Activity**. Additionally, we service our international clients in our capacity as marine consultants, engineers, as well as marine surveyors and adjusters authorized by NASHA.

2. ALS MARINE LTD has been authorized by the National Shipping Adjusters (NASHA) to act as marine surveyors and adjusters on behalf of Panama and Belize flag.
